The XYL* s and YL's in 195? foiraed a section of the radio club of Peru which we call "Seccion" Femenina del Hadio Club Pervano". The main idea was to have wives become interested in their husbands hobby, also meet the wives and get to know each other on more friendlier terms, organize parties, dinners, and social activities. The president is OAUER and Vice Pres is OAU EH, We hol'd meetings every other Wed.

We have one TV station have Canal U of Hadio America and 2 more will be inaugurated soon, Canal 9 & 13 Radio El Sal & Hadio Pan American. We have a GE TV Set—the programs start at 6 p.ru to 10 p.m. We hope they will improve with competition. Congrats on the new baby!

chance to read about other G-YLs who work other bands, and although it is a long way round to get news, it is very nice to hear of them. It interests me very much to read how many radio families there are in the States, My OM is G3ESR and I wonder if we shall one day have a brood of hams, it will be along time ahead I "gear because our oldest is only 11 years and in England the lower limit for licenses is 1U yrs old, and as by that time school work will be all important! don't think we shall have any more call signs Just yet., .

OK?^~Inge, Ausj^ria^ First of all, the most important news: WCWV and W?KLM, Annette and OM Tommy have been here in Salzburg. We spent a nice Saturday evening to gather. On Sunday they made a trip to Berchtesgaden, Germany. On Monday they left for Vienna/ We met them at the station to say good-bye, we also made pixs, we think they are wonderful people, we were sorry to see them go. I've added two more certificates to my collection TPA & RCC. Today I read in the RSGB-bulletin results of RSGB 21/28. Ie fone contest. I find I'm on the 5th place around? EX and 3rd place in Europe outside G& best OE station. "It was the first time in JEHis"contest for me. • I-m - • looking forward to my next Harmonics. Congrats on contest, Inge, es Tax for pix.

OJSYL^Kaarina^Finland We move to a new QTH in May.

The children and cat seem to like the place. I've put up one Antenna'UO, mtr doublet center fed—had a few qsos; I'm visiting OH01 and the coastal radio station. It's colder than I thought. I'm almost freezing. My new QTH. REKOLA, MIRJANTIE.

FJJA^kippy.^iruba^ The OM is employed her by Standard OIL Cd. Works in utility department for 16 yrs. Three of our five children were born here. Bob, 21, attends MIT, W1NSD OW only; Jerry, 18 in Navy, spear. "fishing fan! Pam 1U, Donald 11, Karen 8. The exam for amateur radio operation is given by the director and his aide who came from Curacao once a year. General licenses only are issued. Our class of 33 had U to pass. One must be a native or have been a resident for 10 years and over 21 to have own rig. Max input is 150 watts, I use sole 120 watts. We have only one TV station here. That is a Caracas and most programs are Spanish. We have very little vegetation on the Island. What is here is

fought for madly -oy consuan b ing. The soil is terrible: Some of the flowers are beautiful—well worth the effort,

VKJYL, Austine, Australia a clipping from a Victorian Newspaper sent by Austine reads—SOS ALL 'Hams' Australian radio amateurs are facing post office action which would lead to their extinction. This was disclosed to Parliament by Mr, Pairhall and amateur of many years standing. The PO proposes to restrict amateurs operating facilities without reference to parliament, The session ended with a promise that the decision would be made by cabinet and not the PO, Mr, Pairhall told the House of representatives Australian amateurs now are less generally treated than those in other countries. He said they have fewer channels available than elsewhere. The PO now proposes to reduce each of the three most, used amateur communications channels by, one third and a fourth of one half despite, the fact their population is growing. The PO explained that the Channels to be taken are needed for other services, (We sure this won't happen, Austine Tnx for the lovely book.)

t^3Uj5, (^en Auftraia, I'm setting' by a big log fire.

It's bitter cold here again. We're doing some remodeling to the house and TV shop. I've got my shrubs in, Lots of bulbs and annuals, should have 31 roses in a few days, I'll write the Blue Ridge Net even though I'm not active now—I'm proud to be a YLRL member, I'm grateful to the girls for adopting me. Our plans are altered slightly about our trip overseas. We're not going until the children are old enough to go to boat ding schipl. We're looking forward to it and seeing so many of you YLs,

GH, Africa We have just about every flower and shrub growing here. I'm not a keen gardener myself but let me mention a few dahlias, roses, nasturtiums, mangolds, snspis, carnations, daisies, geraniums, zinnias, larkspur, etc. We have a beautiful poinsettia tree, many Hibiscus near Margote (where Edna ZS50B lives) and in East London, Some people have wonderful almond and cherry trees, etc. We have several fruit trees, most of our seeds are transported, We are in our winter, very cold and snow in some parts—only rain here, I haven't been on the air for ages. Some of our antennas are down. Hope to be on soon,

Four days of rain prior to ..Field Day changed ' the plans of the Club. They had to find a new location and finally found an old abandoned radio shop. Sharp hoes and rakes and hark work got the place in order. No report on the score, good antennas erected, wonderful cooperation from the OMs and LOTS OF FUN.

CONVENTION WS
as reported by K5PFP, Audrey. ■ j: -7;x

It was the pleasure of the GAYLARKS to plan and execute the licensed YL program at the ARRL Convention. There were some 70 YLs in attendance at the YL Breakfast, an annual event of the West Gulf ARRL gatherings. The 11th National Convention was no exception insofar as this tradition was concerned. The feature which made this eyelash QSO unique and all the more enjoyable was the spirit and flavor added by the many girls from remote parts of the U.S. being with us. Every call area of the States was represented with the exception of J and 8.

The GAYLARKS, working closely with their President and Official Hostess for the visiting licensed girls, Lillian Beebe, W5BGD, spread enthusiasm far and wide for the many and varied interests they share within the common hobby. A number of 'firsts' were recorded in the YL programming. The* every guest one of distinction, there were those present who were speakers at the YLRL Forum during the breakfast hour that made each girl there extremely happy that she made the trip: W1Q0N, Eleanor Wilson, YL Editor of QST; WGD XI, Gladys Eastmail, Vice President of YLRL and President-elect for 1960; and K5MD, Betty Vredenburg, Fifth District YLRL Chairman. Late Saturday, KULMB, Ethel Smith, who founded YLRL in 1939 (th&n W7FWB) arrived at the Convention from Arlington, Va. These notables, along with the 90 licensed girls who eventually registered at the Convention celebrated the TWENTIETH BIRTHDAY of YLRL. We were proud that the founder was with us for this occasion.

The talent of the GAYLARKS was shown, in many respects. The work of art in the booth dedicated to YL in Amateur Radio is the handiwork of Betty and Bob Sutton, W5ERH and W5FKD. The booth displayed all YLRL and YL certificates from all known YL clubs.

Pictorial posters and certificates where applicable and QSLs and correspondence from YL clubs from each continent. In the GAYLARK Hospitality Room, Galvez Villa, there was a collection of scrapbooks and photo albums for relaxed viewing, from many of the YL Clubs across the U.S. The lovely decor, at the Breakfast and in Hospitality Room was the work of the talented

K5ALP, Mae Brewer and her "busy," "busy committee."

K5MB.U, Grace Dunlap, La Feria, Texas won the desk pen given by TYLRUN, W/BFE, Joan Drevdahl from Tucson, Arizona won the YLRL pin, W6DXI, Gladys Eastman won the travel alarm given by WHO, KN5UWX, Lie Lana Winn won the purse given by GAYLAHK, W5DIV, Ann Harrison won a silver tray donated, by Louis Lechenger. Perfume was won by W1HOY, W5VNI, W5WXT, and K5LKF... Gaylarks plaques were presented to W6DXI, K5BNQ, W5ZPD, W5DRA, W1QON and K5IMD.

' Much effort expended----- Many new YLs warmly" greeted----- Many new friends----- Good investment of time and energy«

One of the Hi-lites of the Ladies Activities was BAYLARD's SWOOP Initiation for the wives of ham operators, with some 125 women attending. W6BDE, Esther, originator of SWOOP, assisted by K6HIW, Kay and WAGGQC, Elsie, initiated 70 women into the SWOOP. There was lots of fun and prizes for all who attended and another SWOOP party was acclaimed a huge success. P.S. The OMB at the Convention were singing the praises of SWOOP because at last their XYLS have found a place in ham radio.

A wonderful bus'tour and free luncheon, a Japanese floral arranging tea and a SWOOP and YL Breakfast were other activities for the ladies.

BLIND TWINS LICWSED AS HADIO 5^S'L
(from a news clipping handed to -the Editor by KZ5VR)
K1EIC and K1EIR - brand-new YLRI members! - •
Shelton, Conn. ••Betsey es Barbara. Lombardi,...13 year old twins, are licensed radio hams. Not only are they smart and pretty, but they're courageous as any-teen-agers you ever saw.

To qualify for a license the twins first learned Morse code. During the tests, they received messages on earphones, translated then and relayed information to those assisting in the test. In five minutes of testing the girls made only two mistakes. They were able to answer multiple questions as well as code -u. tests with no difficulties. U9

Bach has her own call letters and weekends they can be found at their radio sets in their home.

They type their own log book and have recruited their father to do their filing®

, In addition to being "hops" they are accomplished musicians and entertain friends at home and in school where they are in the seventh grade.

Why are they courageous? Betsey and Barbara have been totally blind since birth."
