

Others whose names came up in the nomination were not enough to be in the running. Thought you might want to know.
 Pres.--- W9NBX Vice Pres. W8TPZ W9ZWL
 W9ILH W6SGD

On another page I have listed the three highest names for election in the order of votes received. However I will list here all who were nominated as I know you are all curious. Thanks for the interest shown and for getting them all in on time. Now don't fail to vote and in the meantime be thinking over whom you want for your district chairman. Also don't forget to cooperate with news and suggestions.

With the National situation developing as it is I think it is a good thing that we pull together and keep our organization going in tip-top shape, for who knows what we women will be doing next? And if we had not this organization there would be no other way of reaching so many women amateurs in such a short time. In other words if any new opportunities come for us everyone will know just how we can all be reached and those girls who are dropping out should think of this before leaving us entirely. News is scarce and radio activity dead, it is true, but I notice most of us have taken on a great many other interests and so many are working on their code and teaching others that I think it a very good reason for holding on until this war is over. Many girls have written me that they are working for commercial tickets and I think that is a very good idea.

No stationery sold- How about it girls don't you want some of the YL&L stationery? \$1.50 for 100 envelopes and paper or half orders if you like. We may not get any more until after the war and would like to sell this before the process of shipping all the equipment to the new Secretary takes place so as to save that extra expense.

Ve4VO. Dorothy Fitts.

Dot from Alberta, Canada writes that she has been in the army since Dec and attached to Signal Corp. She says it is really great to be handling traffic again. Says most of the boys are home and can hardly resist the temptation to use a little with her. Also comments that she used to feel so out of place when we were still active here and she was not, but feels that we amateurs should stick together so as to be able to get our privileges all back again some day.

Most of the First Dist. girls have expressed the desire that HARMONICS continue and I feel that I can confidently say that all of them will do their part in continuing our YL paper. Let's keep up our good work.!

5th Dist. Ruth Brown, W5IIL, 107 W Ida, Electro, Texas.

Girls, didn't you feel badly when you saw the Harmonics with no report from your district? It is the first time that has happened and let's make it the last.

I knew if I just waited long enough some idea would finally come to be of some use in connection with radio. I was asked to make a talk on radio to the science club at High school. I took an oscillator and key with me. That turned the trick and some of the students asked me to teach a code class. There are seven boys and three girls, one my own, who meet at our house each Monday night and we have an hour and one half hard practice. Others are waiting for the next class so they can start.

Our home defense work is getting under way in fine shape. The girls in the Ambulance Corps elected me for their captain. Each of us will carry a collapsible stretcher splints and First Aid Equipment in our car and be on call day or night.

Our younger son called to tell us he had soloed on Friday 13th. I still want to be his first passenger.

W5JAD, Ethel and her OM were kind enough to pay him a visit at the Amarillo airport. We all appreciated it.

Girls, I don't want to take up our space in Harmonics with things I am doing when some of you are doing so much more so please let me have a post card from you before May 10th if possible.
33 Ruth.

6th Dist. Kitty Aitken, 347, Prescott, Arizona.

W6MWO had been East to Philadelphia, visited with W3FMQ in Atlantic City and W9RSQ in Chicago. Said she was sorry she had not more time to have visited some of the girls on the way. Helen now lives at 8570 Barton Way, Los Angeles, Cal.

7th Dist. Ann Thompson, Rock Springs, Wyoming.

No report.

W7HDS writes that she is brushing up on her radio theory to take her commercial again as her five years are up. She is teaching code two afternoons a week to class of 31. The club has 115 registered to date for code. Says she had nice letter from Frank Lamsley in London, who is second op at G88B and who used to send reports when we were operating in the good old days. Also has the usual interesting letter from Maude Phillips in Canada. Lizette says she is giving up the job of Emergency Coordinator. She sends best wishes to the girls.

8th Dist. Clara Reger, 80 Dunlop, Buffalo, N. Y.

No report, but some news gathered here and there.

W8UCY is back in Cleveland, O. She had just heard about the election and hurried up and got her nomination under the line. Says she had a nice vacation in Penn. She has graduated as a nurse in Chicago.

W8TAY- Must not be living right. Hi. Had two banged up knees sore thumb which she cut, an OM sick and all sorts of other troubles too numerous to mention. But forever faithful to YLRL. She says W6OHC Vera Rathbon who married exK6DV has moved from Calif to Longbranch, R. J. 1 Beachwood Ave. Says Romance carried on Via ten-meter phone between Blossom Hill, Cal and Hawaii.

9th Dist. Louise Baker, 912 Trendley, East St. Louis, Mo.

W9JFT, Helen and OM visited JTX the first of the month. Helen is some improved and we are glad to see her about again.

WBILL, Carrie is just recovered from attack of the flu, and is busy with Defense work and studying for commercial. She and OM visited JTX.

W9JMI, Clara is honor member! two reports this month, saying she has been helping a sick friend, besides crocheting. Clara adds her gratitude that Harmonics will continue.

W9NLW, Jean is still attending U. of I. in addition to job with two B C stations. W9WS and WILL... congrats Jean. (Are you deserting CW, HI.)

W9ZWL Martha has seven code students., mostly young men leaving for the Naval Air corps. Not much activity up there, but everyone set for 2 1/2 meters if needed. Martha coins a new phrase for us concerning Harmonics continuing "keep 'em coming" since it is such a nice way of getting news of all the gals.

W9WFP, Carol writes from Boston where she has been attending meetings of Federated Societies of Biology and Medicine. Says she forgot to bring list of YLs there so couldn't look them up. Saw her first black-out there one night. Says she replied to the Navy Civil service job advertised in QST. But has not heard yet.

W9OWQ, Mamie is interested in starting code classes. Says after reading Harmonics decided she was the only idle YL. HI. So you see it does help to tell what you are doing. It is catching. You can bet Mamie is doing her bit somewhere some way, knowing her as we do.
