W5IKC Lou, has new 8CM rig, now looking for some place to hang an 8CM antenna. Frequency 3650.

W5ZA Eunice, on the air now with an HT9 transmitter using a half wave doublet antenna. Has made contact with a lot of the old friends, funny thing about the HT9, either they hear me R-9 or no one hears me at all. Freq. is 14,230,250,272. The big rig is two thirds done. OM Lewis is much improved.

W6NAZ Lenore, thinks the FCC should give away a beam with every ticket. Her new combination 10 and 20 meter beam is in operation now and working fine. Until she gets her ZEPP up, for 80 and 40 meters, Lenore will be found battling the QRM on 20. She will be happy to join the CW girls who are getting together Tuesdays at 10 A.M. PST on 20 CW. Yes, Lenore is after YL-was too.

W6TDL Clara, has just had a personal visit from Commander Pete Bertelli, formerly J9ANA of Okinawa. While he was over there Clara handled traffic and personal QSO's for him, so they found much to chew the fat about. She has also had a visitor from Australia, Robbie Robinson, VK2US. At last report, Clara was striving earnestly for a contact with Pitcairn Island. We hope you made it. For Summertime DX, worked these (States) on 10 Meter fone VR6AA Pitcairn Island also worked

W2CDJ/J2 in Yokohama, Japan and KG6AE on Guam.

W6UHA Maxine, has snagged VR6AA at Pitcairn Island, and the rest of us are green with envy. Congrats on that and on your 20 CW contact with OKLIM in Czechoslovakia. Maxine has had for weekend guests, G3BM, Mike and XYL visiting here from England. The L.A. Ten Meter Net has a lively session in June, with five stations participating, each of them able to hear all of the others. Those present were Maxine UHA (The NCS), Evelyn NZP, Ruth WQK, Clara TDL and Lenore NAZ (jubilant with her new beam). The net will resume operation in September.

W6VWR Anna Louise, royally entertained the IA-YLRL group in June, with nine girls present, W6MNO, W6NAZ, W6NZP, W6TDL, W6UHA, W6UXF, W6WQK, W6YZU and the hostess. There was considerable discussion and swapping of information on BCI problems. The ARRL pamphlet "Ice Breakers" was recommended as a help to anyone having BCI trouble. The IA girls will be getting together again in September, after vacations and visiting have slowed down a bit.

W6WQK Ruth, has been on the air very little as she has house guests, like so many southern Californians these days.

W6YZU Naomi, has an interesting 3-way with Maxine W6UHA and PK2DL in Java, the PK2 was telling about the battle between the Indonesians and the Dutch, which was going on all around him.

W6NZP Evelyn, and the OM are planning a trip up the coast and expect to spend most of it at Sequoia.

W6UXF Enid, I'm very happy to be the sixth district chairman for the coming year, and I'm looking forward to the year's activities. Here's a big vote of thanks from the whole district to Clara, W6TDL, for the grand way she represented us as chairman last year. She has laid aside this task just in time to take over as president of our local YL Club for next year. Congratulations, Clara, and good luck.

W7LCS Toddy, attended the Everette (Wash.) hamfest and met Miriam, W7JFB, among others. Has a QSO with her OM, W7IYV, who had a 15 watt rig on ship in Squaw Harbor, Alaska; for over two hours, with her 15 watts, 6F6 XTAL on 40 CW. Expect to QSO him again at Bristol Bay. She uses an off center-fed Hertz, and has rocks on 7093, 7157, 7278; also 3513, so watch for her.

W7JFB Miriam, has a new 474A and hopes we get mobile on 75, as she says this rig really gets out with low power. She is active on 6 meters also, with a three-element beam on that band.

W7HDS Lizette's OM, W7EUZ, traded her 6SJ7-6L6 ECO off for a generator and gas engine for emergency power. So .. Liz used the OM's rig and call for skeds that week, handling traffic with the Nebraska flood area nets. Has a new f-6L6 ECO so signs HDS again. Best YL net on 20 fone to date included herself, W7JFB, W7HHH and W7KCV, on 14236 KC Thursdays. She wishes to thank all the 7th YL's for help in getting news this past year and hopes you will be as cooperative with our new D/C.
