9th. W9JTX, Louise Baker, 912 Trandley, East St. Louis, Ill.

MEMBERSHIP #226. ARRL Affiliated.

PRESIDENT'S
COLUMN.

We still have nothing definite to announce concerning the CW nets. Many ARRL and AARS nets are finding it necessary to shift frequency this fall and because of this we will have to share 3610KC and 7220 KC with other nets. Since we do not keep daily skeds, it is only right that we should share the time on these frequencies with other nets, now that the bands will be so crowded. Plans for schedules on these two frequencies are being worked out now, in cooperation with the AARS and in the meantime our activities Manager Marie, W8TPZ is lining up net control stations. We hope that soon all of the nets will be in full swing.

33, Enid, W9NBX

Conventions.

Don't overlook the conventions this month. To date I have the following information on them:

Boston- Oct 18- See Dot Evans regard to YLRL meet there.
Enid, Ok. West Gulf Div. Oct 18.
Schenectady. Oct 11, See QST for details.
Kansas City, Oct 11, 12, Midwest Div. See W9DBD for YLRL meet.

Possibly there will be more information later on the YLRL end of the convention but those in the first dist. should let Dot know if they plan to attend. She will either preside or appoint someone to do it. A special room is being set aside at Kansas City for the YLRL club and displays will be made there. We hope to have some movies and talks by different YLs. Program is not completed yet. W9DBD would like to know how many are going, but go anyway whether you let us know or not.

QST.OCT.

....

How did you like the write up by Anita Bien, W8TAY in Oct. QST? I thought it was fine. Nita deserves a big hand and credit for her word. Many hours she stayed up and kept the old mill going to get together all the dope for the article. Now, you know why she ask for the information that she did. So come on up now Nita and take a bow. All the men whom I have heard comment on the article have said it was a very nice write-up.

Contest.

Get set for another YLRL contest soon. Rules given later. Enid, W9NBX is giving prizes of YLRL pin and stationery for winners. Also first prize will be the Corcoran cup which Dot Evans W1FTJ won last time. After winning three times the winner gets to keep it.

Stationery.

I have new supply of stationery. The price per hundred sheets and envelopes is \$1.50. If you like 50 sheets it will be .75.

Sold W1FTJ. 1.50
W8WFQ. .50

Pins.

W5IKC. 65

NEW MEMBERS.

W4HWS Bessie Cunningham, 1246 Piedmont, N. E Atlanta, Ga.	.50
W8WKD Jackie Charles 569 Enger, Pittsburgh, Pa.	1.50
W6OUS, Jacqueline Peterson, Box 302, Yreka, Cal.	.50
W6GEV Lois Lary, 707 Box. Visalia, Cal.	.50
W6RQT Violet Jong, 72 E 10th. Los Angeles, Cal.	.50

Donations.

Since last month the following have come in for the mimeograph fund but the mimeograph has arrived and now we are going to buy the drawing board and letter guide. All I need now is some art lessons to make an artist of me. Hi. After this the donations will go back into the general fund.

W7HHH .50 W1FTJ. 25 W6OHC 50 W5IZL L.00 W6M7O.30 W9ZWLL.00 (W9YQR the om of W9ZWL), 1.27 in stamps) W9NBX \$. 5.00, W8UCY.35 W7YHO.50 W4GFO 1.00. Then Dot W1FTJ donated \$1.11 in stamps that she spent on letters in an effort to get new members in her district. FB Dot. Also congratulate Kitty W6SGD for her fine effort this month in getting new members. The mimeograph has come and it seems fine business.

YL.

HERMIONIA

Oct. 41

"BUT YOU'RE WRONG ABOUT THAT."

BY WIGGAMS.

This is a psychologist's attitude on the scientific approach as opposed to the so called popular opinion on many subjects.

Wiggams says popular opinions on subjects are always wrong unless arrived at by the scientific method. "So called accumulated wisdom of the ages is so much tommy-rot". He says these notions of his do not apply to religion or art since they are meant to inspire and deal with the emotions.

In a few words his premise is that one case does not prove a thing true. Mr. Man of the Street thinks because he has heard of an infant prodigy fizzling out that all of them do. Science takes all cases into consideration and finds the statement untrue.

Some of the commonly held opinions are "that you can read human character by sight of face, body, head." "That you can read your destiny in the stars" "That beautiful women are always dumb" "That great men are born of poor but honest parents." "THAT WOMEN ARE INFERIOR TO MEN IN MECHANICAL ABILITY."

Now this last statement will make you sit up and take notice. Maybe we are lazy, or maybe we haven't had a chance or maybe we have been too busy doing other things, but it is true we have not accomplished so much in the mechanical field. But Wiggams has found that where tests were made which eliminated previous training and skills the girls made just as good grades on mechanical abilities as the boys. It was hard to devise such tests, as it is hard to eliminate the advantage of some previous training or observation. You, see, most boys have been around mechanical things and have been encouraged in it, but girls are usually discouraged and laughed out of court, just as a boy is laughed out of his doll which he may like just as much as the little girl does.

So you see girls, we have a scientist who says we can do the same things men can, if we set our heads to it. (Or maybe we better let well enough alone, and let ourselves out of a lot of work, and keep our men SUPERIOR or we may lose them to some more helpless lady.

Or Something.

33 Leta. W9DBD.

(Next month, we will have a review by W9JWJ Johanna Barned on DeSoto's book "CALLING CQ." Will also have some verse by W6KYJ.

G2YL.

W3CDQ says she has letter from our English member G2YL who says she is OK. Will have new QTH soon. Mighty glad to hear this. Have often wondered about the girls over there.

WHO, ME?

Most men get cross-eyed when they come to size themselves up and see an angel instead of what they're trying to look at. There is nothing that tells the truth to a woman like a mirror, or that lies hard to a man.

George H Lorimer in Letters to a Self-made Merchant to his son. (Small Maynard.)

YL Club.

The YL club composed of I, I, and Mo. girls met at the home of Anna Marie, W9ONW Sunday and really had fine time. So many young people meet at Anna Marie's on Sundays it is hard to tell when she is having a party but four young men, all hams crashed the party and had a good time with us. Anna Marie has a brother who is also a ham and so her home is sort of ham's haven. Her mother deserves credit for being a good scout about it all too. Ernie, the OM of W9WXV had along the movies that were taken at the Field day in Alton and so we lied again the two days spent there. First up on the picture was Carrie W9ILH, laughing and talking as if she were really with us (she was not at the meeting, but sure seemed that she was when we saw her picture.) Several members of the club are going to attend the Grand City convention.

DIST. NEWS.

1st Dist. Chairman, Dorothy Evans. W1FTJ. box 312, Concord, N. H.
fone Ccm 1702

W1BDN is busy moving. She has been made the present of a lovely home which is directly opposite from that of her brother, W1DPM. She is going to have her radio room on the third floor there and hopes to spend a lot more time on the air after she once gets settled..

W1GQT is pleased that the YLs are going to have a meeting of their own at the forthcoming NEW ENGLAND convention in Boston. She hopes all the girls will come that possibly can.... Had a ride recently in a four-place Stinson plane while at the airport with om W1EVZ.

W1MRC. Went to New York recently and took her Class A examination. Says she will now just have to sit back and keep her fingers crossed! Ethel and her OM, W1IM have separate rooms for their rigs. She is using a 6F6 driving an HF100, running about 150 watts. Ethel is looking forward to working W8TPZ and the other girls on 160 fone on Oct 2nd. Her only trouble is getting up at 5AM. Hi.....

W1MUW. Was active recently in the AARL "CQ CP" contest. She's going to become quite a contest gal if she keeps up the good work. Recently visited W1KTE.. Has her ticket all reserved for the Boston Conv. and is looking forward to meeting the First Dist. girls that will be there.. Norma played a swell game of baseball at recent outting of the Manchester Radio Club.

W1MWI. Eleamor tells us that she and the OM W1JDP, have moved from Pierce Bridge, N. H. to Danby, Vermont. New Hampshire's loss is Vermont's gain, for they are both dandy operators. At present they have no permanent place to live, so are temporarily off the air but are in hopes to be back on again before too long.

W1NJQ Carolyn spent the summer months at their cottage on Long Island Maine and kept in touch with her OM working cross-band from 80CW to 160 fone. She has a six-year old daughter as her primary interest. The young lady is starting in her first grade of school this year.

W1FTJ. I surely hope that the first Dist. girls will make every effort to turn out for the N. E. Div. AARL convention and the 8th ANNUAL BOSTON HAMFEST which is to be held at the hotel Bradford on Oct 18th. We have been talking a long time about getting together and making each other's acquaintance and here is our chance to really have a good chew-fest as the convention committee is allotting a room to the YLs for a meeting. Please come and shake hands with your fellow YLRL members as this is an excellent opportunity. Would suggest that if you plan to go that you make reservations in advance as they are going fast. Have had excellent results from letters to girls in my dist. and had lots of letters from girls all over. I will answer all of them and come up hollerin for more.

Dot. W1FTJ.

2nd Dist. Chairman. W2HXQ, Kay Kibling, 336 Oaklind Beach, Rye, NY.
W2MIY's new QTH is 1338 Parkwood N. W. Washington, DC.

W2JZX Vi has been appointed Communications Chairman of the Women's Volunteer Defense Council. She is also active with the men's defense council. She started out by giving an aptitudes test such as is given by the US Signal Schools. 125 women took the test and 80 graded above 50 which is passing. In ten weeks they will have finished and then another class is started.

W2NAZ has been visiting her parents in Los Angeles. Will be back on the air soon.

3rd. Dist. W3CDQ, Elizabeth Zandonini, 3336 Everett, Washington DC.
W3BAK has been to NYC. Her sister Dot W3IRR is on 160 fone.

4th. Dist. Lola Lippelman, 67 Anastasia, Anastasia, Florida. W4FJR
W4GFO, Helen says she was tickled with the QST article and thinks Nita did grand job on it. Helen and Lee are making over their basement for ham shack.

5th.

Ruth Brown. W5IZL. Electra Texas, 107 Ida Ave., Phone 300.
W5JXL is Amelia Doty who works 10 and 160. She is blonde and blue-eye and the XYL of W5ICD.

W5IZL. The convention down here was made perfect when our son W5FYZ came up from Louisiana where he is working and once more the three brown hams were together.

W5HFW Friscilla sends in her first news report. She is xyl of W5HFW
Also has two little boys. Has been member of YLRL for yr

She is alternate for the OM on the 80 meter net. She uses the call W6RJV at present.

W5IHC is having the time of her life visiting with W9JTX and W9ILH and also visiting in Iowa (watch out, Lou, that is my home state). She attended club meeting of the YLs in St. Louis and according to her comments she thinks they are a swell gang.

W5IZL has been doing emergency work with Houston all morning. Haze sky every hour. Had a storm lately.

6th Dist. Ch'rman. Kitty Aitken, 341 Mt Vernon, Box 347, Prescott, Ariz.
W6RJV Octa, says she has neglected 10 meter fone, such as it has been this summer and has been busy making jelly, canning and sewing. She had some nice visits with Eastern and Midwestern hams who were vacationing in Cal and met K6ROJ when she was visiting in Los Angeles.

W6SGD Kitty is in much the same boat as Octa and had to neglect the rig for such commonplace things as jelly and jam, canned fruit and pickles. But it is going to taste good this winter. Now that fall is year we will look forward to ham radio and contacts with the YLRL gang.

W6MVO moves again to 8570 Burton Way, Los Angeles.

W6OHC is now at 1 Beechwood Av. Long Branch, N. J. She was married last Dec. Her OM is W5JRU. Her brother is W6CRK. Last Sun. had lobster dinner with W2LIR and hope to see more of the hams here in the East. Vera and OM met thru' ham radio. He is in the army studying and if you care to see his picture see FM Aug 24. 41. FB pic. of him (W9DEB found it clear in S. Louis.)

The only way I can get the news is for you girls to send it to me so come on and keep up the good work.

Kitty, W6SGD.

7th Dist. Ann Webster, W7HYO, Rock Springs, Wyoming.

Ann W7HYO has been married since she got her ticket and hopes to be permanently located pretty soon.

W7HHH. Bea has been trying to add some new 7th Dist girls to YLRL ranks. She will write up the Northwestern Div. convention. Has talked to Lizette a few times lately. Missed W9DEB on sked.

8th Dist.

Clara Reger, 80 Dunlop, Buffalo, N. Y. W8KYR.

No report.

9th Dist. Louise Baker, 912 Trendley, East St. Louis, Ill. W9JTX

W8UCY is now in Chicago, 1900 Polk St. Hope you look up the girls there Carol.

W9UPT, Ella Karlson says her address is now 14618 Union St. Harvey, Ill.

W9OWQ Mammie had a qso with W1MQF followed by interesting letter. Joe is 20 and at age of 16 had an auto accident which resulted in his legs becoming useless. He wants to know how to do something to make money. Any suggestions will be appreciated. Write W1MQF Joe Cabral, Jr. 147 James St. New Bedford, Mass.

W9EFW Esther is happy to be home again after spending eleven days in the hospital, and is looking forward to many qsos on 160 fone. Esther is NCX on 160 Thur. morn. net. She will operate 1970 KC.

W9GOJ Alice May is on 40 with low power, but still manages to work 160f. Being very efficient, she does the weekly ironing and rag chews at the same time. Any one interested in giving a good home to a kitten, might get in touch with her mother who is the owner of 1 cat, 4 half-grown kittens and 5 new ones.

W9UTO Mary has been practicing copying code from W1AW and hopes to get h 30WPM soon.

W9JPT has been inactive this summer as far as radio is concerned, but very busy getting moved into her new home which she and the om built. Helen invited W5IKC and JTX for dinner and all had nice time.

W9WWP. Carol was pleasantly surprised to meet W9GJX. at hamfests in ja bora at Chicago.

W9TLJ Elvera, and Carol are planning on organizing the Chicago gals. The first meeting is tentatively set for first Sun. in Oct. at Elvera's home. W9ILH Carrie and Om attended the hamfest at Mackinaw Dells, going on up to Minn. on fishing trip. Carrie entertained W5IKC and W9JTX and daughter for three nights. Anything can happen when three yls get together, so

Carrie, Lou and Louise and Dotty piled in Lou's car and started out on a 1500 mile drive, visiting W9JW, and other hams on the way. Imagine Mamie's surprise when Lou called her on the phone. Mamie gave the girls a royal welcome and told them they were the first YLs to ever drop in. Mamie's C came home from the office for a few minutes. W9OWQ's collection of Dx c is something to be proud of, in addition to a lovely home and ideal shack. Three YLs went home convinced that Mamie is truly "Our Wonderful Queen", W9ZWL Martha wasn't quite settled in her new qth when she took a vacation to the Black Hills for five weeks. During the time she was gone she drove 2500 miles and visited many hams. Martha's code class, which she had in winter has really come thru in a big way. Three of them have tickets, two being YLs which we hope will join the league soon. Martha has her T40 on 160 and now is looking forward to YL nets. With 175 watts, three xtal and eco we just can't miss her.

Thank you girls, for electing me Dist. Chairman and for all your nice cards and letters. I shall do my best to report the news accurately and keep our 9th dist. well represented.

This has been a very exciting summer. In spite of being ill, I visited both the O's parents and my own, besides meeting many hams and getting their autographs for my jacket. After nearly a year of QSO's and letters Lou W5IKC spent two weeks with me and words can't express what a really grand person she is. Thanks to all the girls who helped to make her stay a pleasant one.

In addition to being chairman for the ninth dist. I have just received my ORS appointment. CU next month.

33. Louise, W9JTX.
