Happy
Birthday
YLRL

* * * * *

Greetings and congratulations to all Officers and members of YLRL on this Anniversary date. With some bands open to us once again, and more to come soon, the air will soon be humming with YLRL activity. May we forge ahead year by year and prosper continuously.

33's

Mickey Marglin W9ZTU

W6MVO Helen Cook

Became interested in Ham Radio in 1933, listening to the other hams but decided it would be much more fun talking and finding out what it was all about, started studying the code and liked it very much then went to Radio school for a while at the YMCA Bldg. also to Los Angeles City college. Received her Class B in '35 and class A in '36 and while visiting in Washington D.C. received Restricted Radio Telephone.

Helen operated 160-10-20 m. Has worked most all states on 20m phone. Has been trying to get enough things to gether for an antenna for 10m.

Helen works in the make up dept at Warner Bro's. Her other hobby is golf.

* * * * *

W7HYO Ann Webster

Became interested in radio by being invited to join the Amateur Radio Club W7GRW or Great Radio Wizards as they called themselves. They met in a garage but had no transmitter at first, instead we spent our time on code and theory. All Hams that had their tickets were charter members of the Club. The Club was moved to the south side of town and lodged in a regular shack that my Dad donated. We went on the air enjoying the 10 and 20 meter phone and 40 cw. With the help of such wonderful hams as W7DIC W7GBG W7BFC I got my ticket Jan 1940, and married June '40. The OM does not have a ticket but wants me to stay with it.

Ann's hobby before the war was keeping up a world correspondence but has been unable to locate some of her pen pals. Other hobby stamp collection.

During the War Ann worked a year as a relief operator at their local mutual station KQRS, loved the work in the control room but her greatest thrill was being able to run the station alone. At present is a substitute in the local schools, as there is a serious shortage of teachers. Altho radio is still her first love.

* * * * *

W8KNC Opal Ottemiller

My father, W8CFU, of Derrick City, Pa. had been a ham for years on end. In fact, had been on the air before World War I. I had been born February 12, 1917 and about my earliest recollections of radio was hearing my dad talk of being able to go on the air again after the last war. This certainly brings back memories for today I have a girl three myself. For years I talked to hams all over and always going to ham conventions with my dad and several fellows near our home. There were few girl ops back then and I thought one had to be sixteen before you could get a License or take the Govt test. In June of '33 I took my test at Buffalo, N.Y. and received my radio operators license June 34 '44 and in August '33 my call was issued.

I go over the back issues of Harmonics every once in a while. It always gives me a thrill to see how the membership has grown since then.

Opal has many other hobbies besides keeping house for the OM and two Jr. ops. a boy six and a girl three. Right now is busy getting enough equipment together to go back on the air, and in the meantime trying to urge the OM to try for a ticket too. He is an engineer but not a Ham.

VE4APA Maude Phillips

Lives in a little prairie town of 35 people, and runs the only general store. Her OM is VE4AHZ. Maude received her ticket in June '38 and worked 20-10-75 phone. Like many of the XYL's got disgusted trying to get her OM to meals, and never going near the Mike until one day thought she would see how it worked, called a CQ on 10 and a K6 came right back, the first K6 worked. That made an ardent ham of Maude right there and she has been at it ever minute she can spare since. Next to Radio stamp collecting is Maude's pet hobby. At present working 10 meter band and has had some very thrilling moments calling out the old familiar CQ. Maud has worked New Zealand, Australia, Holland, England, Hawaii, South America, Japan and the Philippines.

D I S T R I C T N E W S

1st District Chairman W1KUI Ellen Hastings,
86 Central Ave, E. Hartford, Conn

W1KUI have my half wave Zepp antenna for 40 meters up and ready for use. Now all that remains is to get the transmitter finished. Hunting around for parts for it is only one of the drawbacks. The chief one is inertia.

W1SLPH Florine, intends to buy her Xmitter. Best way to be sure it is satisfactory. Have you decided on the make yet? The Hallcrafters have a honey, only about \$225.

W1GQT's OM has not yet reopened his business of repairing radios and selling appliances. However Jim has a place in mind, and when the owner gives the go signal Jim will be off.

W1NSA wishes that the Navy had given her some construction and repair work. Code and theory took all her time, to her regret. But Bea is working on a transmitter and probably has it finished by now.

W1KKQ is probably out of service by now. Leora's plans tend to lead her into photography, and she hopes the government will approve a school that she has in mind. Because of lack of some permanent place Leora has made no definite plans to set up her rig.

W2KUG/1 is to be congratulated on the birth October 26, of a six pound boy. Kenneth Leland Lathrop will surely be an operator some day with both parents enthusiastic hams. Jennie, by the way plans to go higher than 2 1/2, in due time.

* * * * *

5th District Chairman W5JAL Celia Phares
Ft Smith Ark

W5IKC Lou, been in a stew to get my equipment from home. heard my first VE on 10m, Maude VE4APA, just hope when get on 10m that Maude can hear me as well as I was receiving her. Had a very swell vacation. Visited with W9JTX, OM W9FIN es DOTTY also got to see Helen W9JPT es OM, sorry that time didnt permit me to collect some of that fried chicken, hi - but maybe next year.

* * * * *

7th District Chairman Ann Webster Box 35 Rock Springs Wyo.

W7HDS Says she resigned her job from the Highway Patrol and hoped to find more time for writing, has been trying to catch up with things she wanted to do at home and has been thinking

of trying for 2nd radiotelephone license and has been brushing up on the necessary theory.

W7HHH Bea reports 10m has'nt been too good there and is looking forward for more cw bands being opened. Bea teaches code to a High School student three evenings a week.

W7ENU Mary has two little girls now, Christine 3, and Carolyn 6 months.

* * * * *

8th District Chairman Opal Ottemiller W8KNC Box 221, Emporium Pa

W8UUG Miriam writes that she and OM are operating 2 1/2 meters now and have had good luck so far. I was so very glad to get a letter from Miriam. Oh, yes they just purchased a new receiver a SX 28A, which certainly sounds grand. I might add that they have been heard about 75 miles away with their 2 1/2 meter rig. Good going Miriam.

W8KNC Hates to report she does not have equipment to be on the air yet. The OM and I are planning on getting new receiver and all band transmitter soon. I am working on OM to become a ham too. Hope more gals write to me with their news.

* * * * *

9th District Chairman W9JIM Clara Fehr, East Litchfield Ave.,
Willmar, Minn.

W9JMI Clara is having her home remodeled, says there is an epidemic of flu in town but so far she and the OM have avoided it.

W9JPT Helen, is quite excited about 10 meters, especially she had seen and talked to Lou, W5IKC and Louise, W9JTX. This all took place Sunday, Nov. 18th. W9JPT and her om W9UZU, W9VZG (UZU's Brother) and XYL as Jr. Op, all started out for East St Louis. They had a grand time and Helen was really delighted to see Lou again. They talked over old times. This was the first real ham get-to-gether for Helen for quite some time. About the 10 meters tho', probably will wait until 40 and 80 meters open up and then get into the swing of things and talk to some of her old friends. Helen's space is quite limited at present as they are sharing their home with relatives until their home is completed, but looking forward to having Louise, Bud and Dotty over for that long promised chicken dinner.

W9JTX Louise, after combing St Louis and E. St Louis for a place to live (which th were none for rent) bought a home in East St Louis and feels like a new person again now that she is settled and things in place once more, and has several ideas for the ham shack.

* * * * *

10th District Chairman VE4APA Maud Phillips, Chancellor,
Alberta, Canada

VE2HI Ethel is a school Ma'am in Montreal. At Present has a naval officer and XYL staying with her until they can get an apartment. She had a thrill recently a SWL in Czechoslovakia sent her a card. Heard her on the air Jan. '39 but as the Germans were in his country was unable to send a card.

VE4VO Dot is still with the C.W.A.C. and has the rank of Sergeant now. Is Chief Op. Loves her work but hopes to be out of the Army in time to send one of the first "CQ's" over 40 meters. Has added a dark room to her house and has been doing a little picture printing.

VE4APA Maud has been kept busy with storekeeping and correspondence. Back on 10 meters and has been neglecting everything, including the OM, VE4AHZ. The first contact on the 15th, I just bawled over the mike and the OM had to take over. It was just too much to take after being off for 6 years and two months. hi.

* * * * *

It was our desire to have a small item on all District Chairmen in this issue, but some were unable to get thru. Those missing will be in the next issue or as soon as they are received.

Do not forget to send in your opinion about the paper "Do you want to receive it every month or not" we must know right away. Send your card to Mickey Marglin, Gen. Del. Ft. Knox, Ky.

With the new year just around the corner and some bands already opened and others to come, we have much to look forward to.

Ed. W5IKC
